**PRESS RELEASE**

### **PANSW WELCOMES NEW DEPUTY COMMISSIONERS**

The Police Association of NSW (PANSW), today welcomed the appointments of Jeff Loy to the role of Deputy Commissioner Metropolitan Field Operations and Gary Worboys to the role of Deputy Commissioner Regional NSW Field Operations.

Assistant Commissioners Loy and Worboys are highly respected officers who will bring a wealth of experience and expertise to their new roles, especially during a time of significant reforms.

Police Association Acting President, Tony King, said, "The building blocks are in place for the re-engineering process of NSWPF and are aimed at delivering police on the ground where and when they're needed – this means communities will reap the safety benefits.

"These two officers are real people persons, with a track record in supporting police officers and being strong advocates of the policing profession.

"They are the right people in the right roles to support and deliver community safety and crime prevention strategies.

"Between them they have years of frontline experience building relationships through trust.

"The PANSW looks forward to working with them, the NSWPF Executive Team and the NSW Government to progress the re-engineering process."
